ARE YOU PASSIONATE ABOUT HELPING FAMILIES CREATE SECURE ATTACHMENTS?

Attachment Parenting International (API) is proud to present the Attached at the Heart Parenting Program (AHPP) based on the book Attached at the Heart: Eight Proven Principles for Raising Connected and Compassionate Children. The Attached at the Heart Parenting Program is grounded in attachment theory, informed by cutting edge research, and designed as a prevention model to help parents better understand and apply API's Eight Principles of Parenting to provide for their children’s optimal physical and emotional development.

At this three day training, you can become a Certified Attached at the Heart Parenting Educator (CAHPE) with the information and materials you need to teach parenting classes in your community. We are looking for good candidates such as mental health professionals, social workers, childbirth and lactation educators, doulas, and family life educators.

Program developers and API co-founders, Barbara Nicholson and Lysa Parker, will be there to personally teach the program. Apply today to take advantage of this rare opportunity to expand your knowledge base and become one of a select group of Certified Attached at the Heart Parenting Educators.
